

How To: Mini Egg Nails

1. Apply your base coat & cure for 30 secs. We recommend the vegan Halo Gel Base Coat for this.
2. Apply your first coat of colour and cure for 30 secs. Pastels are key for this trend, so we recommend Halo's First Bloom Collection.
3. Apply your second coat of colour and cure for 30 secs.
4. Now for the fun part! Take a nail brush, (or even an old toothbrush), and dip it into Halo Black Gel Polish. You'll only need a small amount, so try not to overload your brush.
5. Press the brush down onto the nail to create small, speckled marks. Cure for 30 secs.
6. Apply your top coat, cure for 30 secs and enjoy your Easter Nails.
